

VIC-20

STORY

You are a tiger walking through your native land when disaster strikes. A bullet flies by your head, as you realize you are being hunted by the most vile, invasive species of the world HUMANS!!! Run from the hunters and try to make your way back to your territory; but make sure not to run into a tree! The jungle is an unforgiving place even as an apex predator, and members of your family can be killed along the way.

STARTING THE GAME

Load the .prg file of the game into your vic-20 emulator. Type RUN to start the game. You will be greeted by a title screen. Press "space" when you are ready to begin your
<<<SURVIVAL HUNT>>>

HOW TO PLAY

SURVIVAL HUNT is a vertical-scrolling game in which you run from hunters, avoiding trees in order to reach your final destination, Home! Move the joystick left and right to avoid trees, and walk over power ups to gain temporary bonuses.

The longer you survive the higher you score. So, make sure you are in it for the long haul.

WORKS WITH OR WITHOUT JOY STICK!
